## Summary of Business Results for 1Q.FY3/11

### 【Status of Profit and Loss】

#### ■ Consolidated

Reflecting the result of two bank subsidiaries, ordinary profit increased by JPY11.7bn YoY to JPY27.8bn, and net income increased by JPY9.5bn to JPY19.0bn.

#### ■ Combined non-consolidated totals for two bank subsidiaries

Regarding gross operating profit, while banking related profit decreased YoY mainly due to decline in market interest rates, asset management business profit increased YoY as a result of steady increase in investment trust sales and recovery of fees related to real estate brokerage. In addition, net other operating profit increased YoY due to increase in market related income. As a result, pre-provision profit and net income largely exceeded figures of previous fiscal year to JPY31.0bn and JPY21.8bn.

Credit costs decreased substantially YoY, mainly due to reversal of allowance for loan losses led by the improvement in business condition of borrowers.

### 【Summary of Strategic Focus Areas】

- (1) Since sales amount of investment trust increased steadily, investment trust & annuity insurance related profit increased by JPY1.0bn YoY to JPY7.2bn.
- (2) Real estate income increased by JPY1.1bn YoY to JPY2.5bn due to recovery of real estate trading amount by J-REITs and private funds.
- (3) Housing loan balance was JPY 3,311.1bn, decreased by JPY20.0bn from the end of March, 2010, as a result of loan rate strategy focusing more on profitability under the fierce interest competition among banks.
