

Greenhouse Gas Emissions Verification Report

To: Sumitomo Mitsui Trust Group, Inc.

1. Objective and Scope

Japan Quality Assurance Organization (hereafter “JQA”) was engaged by Sumitomo Mitsui Trust Group, Inc. (hereafter “the Company”) to provide an independent verification on the statement of information regarding FY2025* GHG emissions from Scope 3 (hereafter “the Statement”). The content of our verification was to express our conclusion, based on our verification procedures, on whether the Statement was correctly measured and calculated, in accordance with the “Scope 3 GHG emissions calculation manual” (hereafter “the Rule”) established by the Company. The purpose of the verification is to evaluate the Statement objectively and to enhance the credibility of the Statement.

*The fiscal year of the Company ended on March 31, 2026.

2. Procedures Performed

JQA conducted verification in accordance with “ISO 14064-3”. The scope of this verification assignment covers GHG emissions from Category 7 of Scope 3. The verification was conducted to a limited level of assurance and quantitative materiality was set at 5 percent of the total emissions in the Statement. The organizational boundaries of this verification cover Sumitomo Mitsui Trust Group, Inc. and its consolidated subsidiaries, in total 8 companies.

Our verification procedures included:

- Checking the Rule, the report boundaries, calculation scenario and allocation method, monitoring and calculation system and its controls.
- Cross-checking the GHG emissions data against evidence.

3. Conclusion

Based on the procedures described above, nothing has come to our attention that caused us to believe that the Statement is not materially correct or has not been prepared in accordance with the Rule.

4. Consideration

The Company was responsible for preparing the Statement, and JQA’s responsibility was to conduct verification of GHG emissions in the Statement only. There is no conflict of interest between the Company and JQA.
