【Reasons for not implementing each principle of the Corporate Governance Code】 (Updated)

SuMi TRUST Holdings implements every principle of the Corporate Governance Code revised in June 2021 (including principles aimed at the prime market segment that will apply on or after April 4, 2022).

【Disclosure based on each principle of the Corporate Governance Code】 (Updated)

[Principle 1-4]

<Policies Regarding Strategic Shareholdings>

- In the SuMi TRUST Group's FY2021 Management Plan, a priority theme is “creating a virtuous circle from increased enterprise value leading to increase in household savings, assets and capital.”
- In order to achieve this goal, the Group, recognizing its special role as a Trust Bank group that is both an investor and a provider of solutions to increase corporate value, has transitioned to a policy under which, in principle, we shall not hold any conventional “Strategic Shareholdings” (that is, shares of business partners held as a stable shareholder without the purpose of forming a capital or business alliance, etc.).
- In accordance with this policy, we will engage in dialogue with our business partners with the aim of increasing their corporate value and solving their issues based on the environment in which they operate and stakeholder trends, and through such dialogue, we will accelerate the reduction of our Strategic Shareholdings. As a target for immediate reduction, we aim to reduce our holdings by 100 billion yen (as measured by original acquisition cost, not current market value) over the two years from FY2021 to FY2022.
- Furthermore, during the interim period until the reduction of Strategic Shareholdings is agreed upon with our business partners, the Board of Directors shall examine and verify the correlation between the benefits/risks and capital cost of holding the Strategic Shareholdings.

<Results of Reduction of Strategic Shareholdings>

In the five years from fiscal year 2016 to fiscal year 2020, the SuMi TRUST Group reduced its holdings (at cost) by a total of 142.6 billion yen. In fiscal year 2021, the SuMi TRUST Group reduced Strategic Shareholdings (at cost) by 22.3 billion yen in the six months to the end of September.

<Examination of Status of Strategic Shareholdings>

- In accordance with profitability standards, SuMi TRUST Holdings carefully observes and examines the relationship between the benefits/risks and the capital costs of Strategic Shareholdings based on the following indicators.
 - Profitability indicators
$$(\text{Profit after deduction for credit costs/expenses}) \div (\text{Equity risk-weighted assets} + \text{credit risk-weighted assets})$$
- As of the end of March 2021, approximately 20% of the book value of the Strategic Shareholdings did not meet profitability standards.
- Starting in fiscal year 2021, under the new policy, we will continue to examine and verify the correlation between the benefits/risks and capital cost of holding the Strategic Shareholdings, both overall and on a per-company basis, based on profitability standards, while at the same time engaging in dialogue with our business partners with the aim of increasing their corporate value and solving their issues, regardless of profitability. In this way, we will continue to discuss measures for reducing our holdings. Based on the status of these discussions, and after carefully examining the impact of reducing the Strategic Shareholdings on our financial targets, client base, etc., we will verify the appropriateness of our targets and actions for reducing the Strategic Shareholdings, and the Board of Directors will confirm these determinations on a regular basis.

<Standards for Voting on Strategic Shareholdings>

- SuMi TRUST Holdings and SuMi TRUST Bank, which is a core subsidiary of SuMi TRUST Holdings, shall decide to vote for or against each agenda and exercise voting rights pertaining to the Strategic Shareholdings (the “Voting Rights”), after comprehensively taking into consideration the business conditions, etc. of the issuing company of the Strategic Shareholdings (the “Issuing Company”), as well as the impact

to sustainable growth and medium- to long-term enhancement of the corporate value of the Issuing Company and the SuMi TRUST Group.

- In the case that SuMi TRUST Holdings or SuMi TRUST Bank is required to pay special attention upon the exercise of Voting Rights due to a long-term downturn of business conditions, a reorganization, or an occurrence of significant compliance violations, etc. of the Issuing Company, SuMi TRUST Holdings or SuMi TRUST Bank shall decide to vote for or against each agenda, by paying attention to the agendas especially listed below, after collecting enough information through a variety of methods including engaging in dialogue with the Issuing Company.
(Agenda regarding the distribution of surplus, appointment of directors and corporate auditors, grant of retirement benefits to corporate auditors, etc., organizational restructuring, MBOs, etc.)
- In the case that there is a risk of conflicts of interest upon the exercise of the Voting Rights, SuMi TRUST Holdings and SuMi TRUST Bank shall properly deal with the risk pursuant to the Management Policy Concerning Conflicts of Interest prescribed separately.
- Furthermore, new policy on exercising voting rights based on the recent revision in policy regarding Strategic Shareholdings/ have been published on SuMi TRUST Holding's website and are scheduled to be applied at general meetings of Shareholders held on or after June 1, 2022.

[Supplementary Principle 1-4-1]

<Policy When Strategic Shareholders Indicate Their Intention to Sell Their Shares>

When strategic shareholders indicate their intention to sell, etc. their shares, SuMi TRUST Holdings shall not hinder their selling by, for instance, implying a possible reduction of business transactions.

[Principle 1-7]

<Management System of Related Party Transactions>

SuMi TRUST Holdings sets out in Article 13 (Management System of Related Party Transactions) of the “Basic Policy on Corporate Governance” that when the SuMi TRUST Group engages in transactions with its officers or major shareholders, etc., the transactions shall be referred to the Board of Directors for prior approval, in order to ensure that such transactions do not harm, among other interests, the interests of the SuMi TRUST Group or the common interests of its shareholders, except where the trading terms are obviously equivalent to those of general transactions. In addition, SuMi TRUST Holdings separately prescribes, and discloses an outline of, the Management Policy Concerning Conflicts of Interest pursuant to laws, etc. in order to ensure that the interests of its customers are not unfairly harmed, and appropriately manages transactions that may give rise to a conflict of interest pursuant to this policy.

[Supplementary Principle 2-2-1]

<Review of the Status of Implementation of Company Conduct Standards>

SuMi TRUST Holdings conducts an awareness survey and compliance survey on the SuMi TRUST Group's employees each year. The questions cover employees' satisfaction, sense of burden, corporate outlook, recognition of the current state of their jobs, superiors, workplaces and company and other matters. The results of the survey are compiled and reported to the Board of Directors, which shares information about the state of compliance with conduct standards, SuMi TRUST Holdings' corporate culture and others.

[Principle 2-3] [Supplementary Principle 2-3-1]

<Sustainability Issues, Including Social and Environmental Matters>

In order to appropriately address issues surrounding sustainability as management themes, the SuMi TRUST Group has identified priority issues (materiality) based on opinions of external directors and corporate auditors, as well as external experts. The SuMi TRUST Group will strengthen its countermeasures toward these issues at the practical level. In addition, the SuMi TRUST Group will position these issues as management issues to be addressed in creating values that are shared with society, and multilaterally discuss themes of high priority at the Board of Directors level with the aim of supporting long-term enhancement of corporate value.

In order to achieve the goal of “Balanced creation of both social value and economic value” at the very core of our management philosophy in our Medium-Term Management Plan starting in fiscal year 2020, during this fiscal year, the SuMi TRUST Group will continue to improve the sophistication of its management methods, for example by setting KPIs for materiality items.

With regard to climate change in particular, the TCFD Project Team, established in October 2019, is working to strengthen risk management and information disclosure related to climate change, and deliberations are regularly held by the Risk Committee, an advisory body, and the Board of Directors.

[Supplementary Principle 2-4-1]

<Ensuring Diversity in the Recruitment of Core Personnel>

1. Approach to Ensuring Diversity, Human Resources Development Policy, and Internal Environment Improvement Policy

The SuMi TRUST Group has formulated a Basic Policy for Personnel Affairs Management, the goal of which is to provide a workplace in which individuals’ diversity and creativity are fully utilized as value-added to the organization and they can have dreams and pride and feel motivation when working, to form a workforce capable of successfully providing comprehensive solutions by making full use of their advanced expertise and comprehensive capabilities and to promote their activities.

In addition, in April 2018, we established the SuMi Trust Group Human Resources Development Policy to improve the working environment and bolster human resources. For specific details on the Policy and our efforts to implement it, please refer to SuMi TRUST Holdings’ website and Integrated Report and to “Others” in “3. Measures for Respecting the Position of Stakeholders” in Part III of this report.

2. Status of Ensuring Diversity

- With respect to the appointment of female managers, guided by its general business owner action plan based on Japan’s Act of Promotion of Women’s Participation and Advancement in the Workplace (“action plan”), with the goal of increasing the number of women in decision-making positions, our core subsidiary SuMi TRUST Bank set a target of more than 12% female employees serving at a rank of section manager or higher by the end of March 2023. This target was achieved ahead of schedule in July 2021 when the percentage reached 12.2%.

Furthermore, a new KPI was set that calls for more than 20% women at the rank of section manager or higher and more than 30% in charge of management operations

(currently 27.0% as of September 30, 2021) by October 2024.

- To promote women's participation and advancement in the workplace, we are promoting various measures with a view to the advancement of women to management positions, including the formulation of pipeline models to facilitate the planned nurturing of employees in each business and training to enable female employees to build their own career path. In addition, starting in fiscal 2021, we introduced an executive support system in which executive officers get actively involved in women's management and support the acquisition of a wide range of knowledge, perspectives, and personal connections over a period of approximately one year.
- In addition to hiring new graduates, we are also actively recruiting mid-career professionals to ensure diversity, which is one of our strengths as a trust bank group. In recent years, our core subsidiary SuMi TRUST Bank has been recruiting around 100 mid-career people every year in Japan, regardless of nationality, including from different industries. As of September 30, 2021, 20% of annual recruits are mid-career professionals, with mid-career professionals making up 20% positions at the rank of section manager or higher, and we will continue to work toward maintaining the current level.
- With respect to non-Japanese nationals, our core subsidiary SuMi TRUST Bank has a total of 81 local staff working in Japan and more than 700 local staff members working at its overseas offices. The percentage of local staff in management positions at each overseas office is about 64% (as of September 30, 2021), and we will continue to work toward maintaining the current level.

Going forward, we will continue to encourage diverse human resources to excel through work environment improvements, appointments, training, etc., in accordance with our Basic Policy for Personnel Affairs Management and our Human Resources Development Policy.

[Principle 2-6]

<Demonstration of Functions as Asset Owners of Corporate Pension Funds>

In February 2016, the SuMi TRUST Bank Pension Fund announced its policy to accept Japan's Stewardship Code. Accordingly, the SuMi TRUST Bank Pension Fund dispatches experienced corporate pension managers from the Group as Pension Management Directors to fulfill its role as an asset owner of corporate pension funds to support stewardship activities. In October 2018, the SuMi TRUST Bank Pension Fund set up its website to provide information to beneficiaries (participants and qualified recipients). The information includes reports on relevant activities such as monitoring investment performance at each management institution.

Regarding the management of conflicts of interest which have possibly occurred between beneficiaries of corporate pension and companies, the SuMi TRUST Bank Pension Fund works to ensure that the interests of the beneficiaries are maximized in accordance with the Basic Management Policy, which has been set forth based on the guidelines of the Ministry of Health, Labour and Welfare. In specific terms, the SuMi TRUST Bank Pension Fund enhances the value of pension assets through the selection and monitoring of management institutions (including stewardship activities such as the exercise of voting rights). Furthermore, a system is in place in which the Asset Management Committee, which comprises investment professionals, and the Board of Representatives, the majority of which comprises representatives of the beneficiaries, examine, as necessary, whether the management is being made in accordance with the Basic Management Policy and whether there are any conflicts of interest.

As of the date of submission, seven out of the 15 directors are external directors, and the percentage of external directors is 47%.

<Effective Use of Independent External Directors>

In order to ensure the effectiveness of its corporate governance system and further enhance the soundness and reliability of the business model and the transparency of management of the SuMi TRUST Group, SuMi TRUST Holdings, pursuant to Article 7 (Establishment of Committees) of the “Basic Policy on Corporate Governance,” shall establish a Risk Committee and a Conflicts of Interest Committee, in which independent external directors shall participate, as advisory bodies to the Board of Directors, in addition to the Nominating Committee, the Compensation Committee and the Audit Committee, which are required to be established under the Companies Act. [Supplementary Principle 4-11-1]

<Perspectives on the Balance of Knowledge, Experience, and Capability, Diversity and Scale of the Board of Directors as a Whole>

In its Medium-Term Management Plan starting in fiscal year 2020, the Group defined a new “Purpose” (reason for existence) and set “balanced creation of both social value and economic value” at the very core of its management philosophy. In addition to identifying priority issues (materiality) such as declining birthrates, aging society, climate change, and digital transformation to take on the mission of solving social issues, the Group also recognizes them as growth opportunities and appropriately incorporates them into its management strategy.

Because the Group is a financial group specialized in trust banking, its Board of Directors is composed of individuals with knowledge and experience in the four areas of (1) corporate management; (2) financial accounting; (3) legal affairs, risk management, and compliance; and (4) creativity. Board members also possess the skills required to address priority issues (materiality), which are skills specific to the trust business as well as skills in the areas of sustainability, digital/IT, etc. that lead to new value creation and fall under category (4) (“creativity”).

Furthermore, it is the policy of SuMi TRUST Group to build a broadly diverse and well-balanced formation and work toward the sustainable improvement of the corporate value of the Group while strengthening the supervisory function by assigning highly specialized experts to the statutory and voluntary committees established by supervisory bodies. The so-called skill matrix of each internal and external director is shown in Appendix 2 attached to this report. We have already appointed multiple external directors who have management experience at other companies.

Details on the ideas expressed above are provided in Article 4 (Composition of the Board of Directors) and Article 5 (Policies Regarding Nomination and Dismissal of Directors and Executive Officers (*1)) of the “Basic Policy on Corporate Governance.” Accordingly, the SuMi TRUST Group as a whole makes a steady progress in achieving diversity, including the appointment of a female external director in SuMi TRUST Holdings in June 2017, as well as the appointment of an external director who is a legal professional in SuMi TRUST Holdings and two female external directors in SuMi TRUST Bank, the core subsidiary of the Company, in June 2019, followed by another two in June 2021, and so forth.

Other than external directors, no directors currently hold officer posts at other listed companies.

[Supplementary Principle 4-11-3]

SuMi TRUST Holdings conducts annual evaluation of the effectiveness of the Board of Directors as a whole (hereinafter, the “Evaluation of the Board of Directors”), and reviews and implements remedial measures for the challenges derived therefrom, whereby a PDCA cycle is activated for improving the effectiveness of the Board of Directors.

In the Evaluation of the Board of Directors in fiscal year 2020, assessments were conducted from multiple angles; namely, self-evaluation by the Board of Directors, the Board of Directors' evaluation of each committee, each committee's self-evaluation, and executive officers' evaluations of the Board of Directors.

In addition, starting this fiscal year, we have initiated self-assessments of individual directors. In conjunction with these evaluations, we undergo reviews by third-party organizations (external consultants) to receive verification from different perspectives and gain new insights before conducting our own self-evaluations.

Method of inquiry	1) Questionnaires for directors, executive officers (*1), and members of each committee (evaluation by five-grade multiple choice, along with narrative writing) 2) Interviews with directors by a third-party organization (external consultant)

<Measures to Address the Challenges Recognized through the Evaluation of the Board of Directors in Fiscal Year 2019>

(2) Improvements to internal control systems and operations at Group companies

(3) Further improvements to the appropriate operations of the Board of Directors, reflecting the supervision and execution roles expected of it

In the Evaluation of the Board of Directors for fiscal year 2020, SuMi TRUST Holdings confirmed that the content of the deliberations has been enhanced and the supervisory function has been strengthened as a result of the Board of Directors and each committee being operated with an awareness of its objectives, and that a certain level of effectiveness had been ensured.

Meanwhile, through the Evaluation of the Board of Directors, the following three points were confirmed as issues of the Board of Directors and each committee which required improvements and enhancements, and SuMi TRUST Holdings shall continue to make efforts to address these issues.

[Supplementary Principle 4-12]

<Invigorate Deliberations at the Board of Directors>

The Board of Directors supervises the status of execution of duties by the executive officers (*1), etc., as well as determines the basic management policy, selects business models through the formulation of a management plan and makes decisions on risk-taking, etc. To fulfill such a role, the Board of Directors selects management priority issues and themes from a medium- to long-term perspective, in addition to matters required by laws and regulations, as the “management theme,” and discusses them freely without the express purpose of reaching conclusions.

Through these initiatives, the Board of Directors utilizes the insights and perspectives of the external directors on important themes at the heart of management.

[Supplementary Principle 4-14-2]

<Policies on Training of Directors>

SuMi TRUST Holdings sets out its policies regarding the training of directors as follows in Article 6 (Policies Regarding Training of Directors) of the “Basic Policy on Corporate Governance”:

SuMi TRUST Holdings will clarify systematically the training and orientation sessions as well as other training programs SuMi TRUST Holdings had hitherto offered, and report to the Board of Directors on the status of implementation for training programs. Implementation status for the fiscal year 2020 is as follows.

 - Conducting business briefings for mainly newly-appointed external directors: Each of the managerial departments and the planning departments of main businesses conduct briefings each year for newly-appointed external directors on the details of business and issues, among other matters. Since there were no new appointments in fiscal year 2020, external lecturers were invited to cover highly specialized topics (the state of Group governance, global financial regulations, and cyber security) for the

currently serving external directors. In addition, we added themes that are of interest to external directors and themes that are specialized and difficult to understand, such as financial and economic trends and the Group's digital strategy, in an effort to improve the briefing sessions.

- Advance briefing on matters to be deliberated by the Board of Directors
- Attendance at the Group Management Strategy Meeting held at the beginning of the fiscal year
- Compliance training (jointly held with internal officers): Participation in US compliance and high level training, as well as officer compliance training
- Joining in at the “Officers Hearings,” “Executive Officers Hearings,” and “Affiliated Company President Hearings,” which are held as interviews with the Audit Committee members and Audit and Supervisory Committee members

2. Various training and seminars for mainly internal officers

- Workshops on highly specialized topics: Inviting external lecturers to cover highly specialized topics (the state of Group governance, global financial regulations, and cyber security) at workshops held jointly with external directors
- Regular workshops: Inviting lecturers from the research departments, Sumitomo Mitsui Trust Research Institute Co., Ltd., and Sumitomo Mitsui Trust Asset Management Co., Ltd. to hold regular workshops on topics such as economic trends, real estate market trends, and ESG evaluation
- Compliance training programs: Conducting High-level US Compliance training programs and compliance training programs for officers
- Training for newly appointed executive officers: Implemented for the purpose of having officers fully understand what is expected of them so they can change their way of thinking and transform from branch/ general managers into a management team (executive officers) capable of achieving overall optimization, future creation, and innovation
